

Strategic Workforce Solutions

Endorsed by 27 state hospital associations and nurse leadership organizations

Healthcare systems and facilities need an accountable partner committed to fulfilling their workforce needs. Through strong partnerships with your state hospital association and accountable suppliers, coupled with AI-powered technology and real time data, we empower healthcare facilities to better serve their community.

Shaping solutions with your voice and vision

We listen closely to your needs and shape our solutions around your vision for advancing your facility's mission. By aligning your workforce strategy with your organizational goals, we anticipate future challenges, empowering your organization to lead with innovation and excel in patient care.

Focus on financial stewardship

Qualivis customizes programs to provide immediate cost savings and sustainable workforce solutions. By optimizing staffing and operations, we protect your bottom line and support your long-term financial goals, enabling effective resource allocation and continuous investment in patient care.

Q Case study

Baptist Health, a large healthcare organization with eight acute care hospitals, faced rising contract labor costs during and after COVID-19. To address this, they launched a strategic initiative to centralize and outsource their contract labor management by partnering with Qualivis MSP, and leveraging its advanced workforce technology.

A key element of this transformation was the seamless integration with Workday, enabling Baptist Health Kentucky to unify their workforce data, enhance visibility into staffing needs and automate crucial workflows. As a result, Baptist Health Kentucky reduced contract labor expenses by 45% and reinvested those savings into merit increases for employees.

Qualivis is more than a vendor, they are a true partner. To have a group of people that care about my business outcomes as much as I do is a rare find.
